

Chemistry Grade 11

WEEK 1

- Matter and Change
- Measurements and Calculations
- Atoms: The Building Blocks of Matter
- Chemical Formulas and Compounds

WEEK 2

- The Periodic Law
- Chemical Bonding
- Arrangements of Electrons in Atoms

WEEK 3

- States of Matter
- Gases
- Stoichiometry

WEEK 4

- Chemical Equilibrium
- Reaction Kinetics
- Thermodynamics

WEEK 5

- Electrochemistry
- Oxidation-Reduction Reactions
- Nuclear Chemistry

WEEK 6

- Compounds in Aqueous Solutions
- Colligative Properties
- Determining pH and Titrations

Chemistry Grade 11

WEEK 7

- Oxidising and Reducing Agents
- Balancing Redox Reactions
- Revision Questions

WEEK 8

- Carbohydrates and Lipids
- Amino Acids and Proteins
- Metabolism
